

Product Introduction

Fingerprint Access Control is a widely used Access Control in the office. Choosing a lot of stable original parts, strictly follow the national security product standard. Fingerprint Access Control is suitable for the entrances and exits of office, factory, hotel, school etc. All input/output are using anti-jamming protection and over-voltage/circuit protection. The product experiences the strict degradation test before leaving factory, The greatest advantage of Fingerprint Access Control is easy to install, with multifunctional & elegant design and reasonable price.

Benefits:

- One fingerprint develop the whole world
- Adopt high reliable industrial component parts and optical sensor, watchdog monitor to avoid unit hang ,unique reset key keeps the unit well work
- Easy to install all the cable connection EM lock installation are the same to the traditional IC/ID Access control
- One-way alarm output :dismantlement alarm ,threaten alarm ,unlock illegally alarm , not block alarm

Technical Specifications

- User capacity : 500/**1500**
- Transaction capacity : 30000/**100000**
- Verification mode : 1:1 or 1:N
- Access Control : 50 Time Zone ,5 Grouping, 10 Combination, Holiday Management ,support many fingerprints access ,support standalone work
- Electric lock control: Directness relay out put 3A/12VDC
- Communicational: TCP/IP or RS232 and RS485
- Keyboard and Display: LCD with 80 character and figure keypad
- Power: 9-24 VDC, stay current: 50MA, work current: 400 MA
- Identification speed: ≤ 2 seconds
- FRR: $\leq 1\%$
- FAR: $\leq 0.0001\%$
- Collection station: ZK collection station
- Temperature operating: 0°C - 45°C
- Humidity operating: 20%-80%
- Language: simplified Chinese, traditional Chinese, English, other Languages
- Size: 180(L)*82(W)*55(H)mm
- Management software: Transaction fingerprint management and Access control attendance options, and network management
