PRODUCT STRUCTURE DIAGRAM

REMOTE CONTROL INSTRUCTIONS

You need to match it on the first time.

Match Method:

1. Press the photography button and video button on remote control simultaneously over 5s, release two buttons when red and blue lights flashing alternately, at the same time, it will search the surrounding camera to match automatically (camera is powered on).

The lamp off when Matching complete. If you press the button over 5s but the red and blue light still do not flash, that means the camera has been matched.

2. Short press the video button once, the camera will switch to video mode start to video model start / stop recording, and stop at video mode.

Long press the video button for 2s, the camera will off-screen, if you click any button, the screen will be light again.

3. Short press the photo button once, the camera will switch to photo mode and take a photo, and stop at photo mode, if you short press photo button during recording video, it will capture one photo. No function for a long press.
