- 18. Watch Face Market
- 19. Pedometer
- 20. Folder Management
- 21. Camera

Common Troubleshooting Solutions:

The Phone Cannot Recognize The Sim Card?

- 1). Install Another Sim Card To Rule Out The Possibility Of Damage.
- 2). Check Whether The Sim Card Slot Is Dirty Or Deformed.

The Standby Time Is Short, Is There a Battery Problem?

The Standby Time Depends On The User's Usage Habits And Frequency. The Device Has Android System With Rich Features And Powerful Configuration. When Using Power-Hungry Applications Such As Social Media Applications And Games, Power Consumption Will Increase Accordingly.

Does The Watch Get Hot Easily?

Use High Power Applications For Extended Periods Of Time. The Processor Generates a Lot Of Heat When Running At High Speeds, So The Surface Of The Watch Is Smaller And The Heat Dissipation Is Relatively Slow. Try To Avoid Using High-Power Applications For Extended Periods Of Time.

Does It Support Bluetooth Calling?

Not Supported, You Need To Install a Sim Card To Use It.

GPS Function Failure?

- 1).** Please Check Whether The GPS Is Turned On And Set The GPS To High-Precision Mode.
- 2).** When Using The GPS Function For The First Time, Please Use GPS Positioning In An Open Outdoor Area.

Kind Tips:

- ✘ Improper Operation May Cause The Product To Freeze. You Can Forcefully Restart The Watch By Pressing And Holding The Power Button For 10 Seconds.
- ✘ For Example, When Using The Mobile Network, Making Calls, Surfing The Internet, Video And Other

High-Energy-Consuming Programs, The Power Consumption Will Be Relatively Large, And The Machine May Become Slightly Hot Or Hot, Which Is Normal. If The Machine Prompts a High Temperature Alarm, Please Reduce The Use Of Such High Power Consumption Applications.

✂ Water Resistance Is Not Permanent And May Weaken Over Time. Supports Hand Washing, Rain, And Short-Term Soaking. Scenarios Such As Hot Showers Are Not Supported.

✂ Note: Several Situations May Affect The Waterproofness: The Device Is Dropped, Bumped, Or Impacted It Comes Into Contact With Soapy Water, Shower Gel, Detergent, Perfume,

Oil, Hot Water, Sauna And Other High-Temperature And High-Humidity Scenes.

✘ Equipment Damage Caused By Liquid Entering Is Not Covered By The Free Replacement Warranty.

✘ Our Company Reserves The Right To Modify The Contents Of This Manual Without Any Prior Notice. Some Functions Are Different In The Corresponding Software Versions, Which Is Normal.
